

SKYTECH

**Your Strategic Partner for Secure Enterprise Transformation,
Cybersecurity, Cloud Modernization & AI Enablement**

WHO WE ARE?

SKYTECH is a Microsoft Solutions Partner delivering enterprise-grade cloud transformation, cybersecurity architecture, and AI enablement to organisations across the GCC, Africa, UK, and USA.

We design and deliver Microsoft 365, Zero Trust security, cloud infrastructure, and AI automation solutions that reduce risk, ensure regulatory compliance, and generate measurable ROI enabling leadership teams to modernize with confidence and protect critical business assets.

OUR VISION

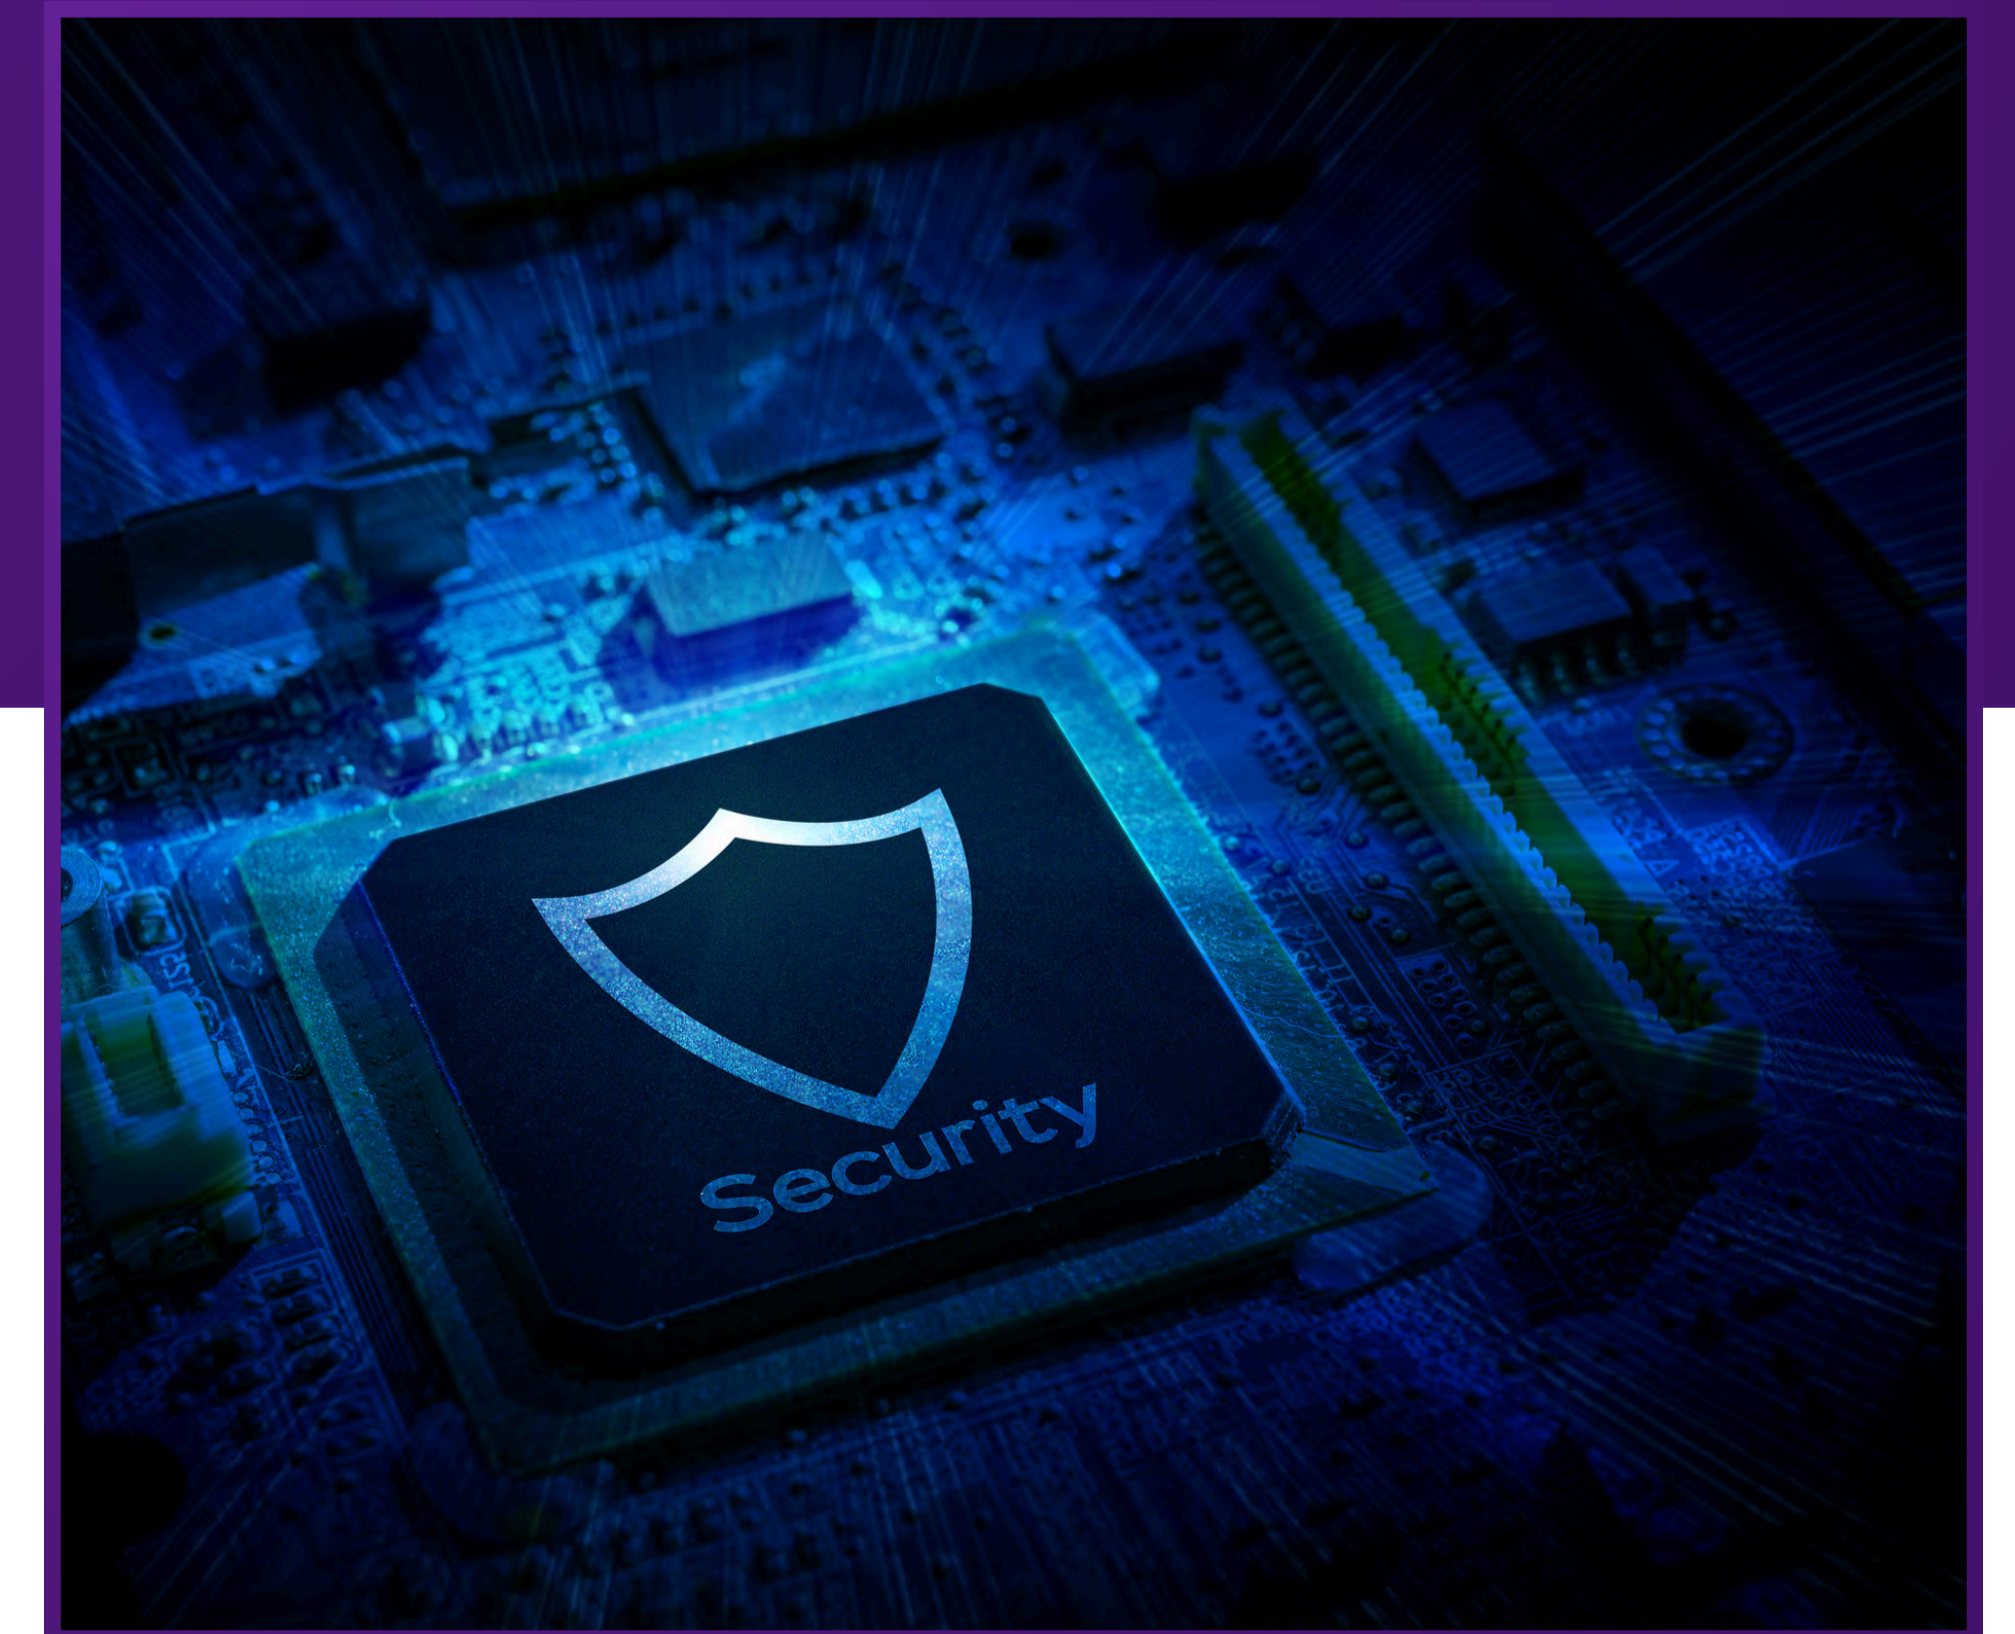

To be the most trusted technology partner for enterprise organisations across the Middle East, Africa, and globally enabling secure, intelligent, and resilient digital transformation at scale.

OUR MISSION

Empower executive teams to achieve transformational business outcomes through enterprise cybersecurity, cloud modernization, AI enablement, and Microsoft technology leadership.

CORE VALUES

Our values reflect how we engage with executive leadership in regulated environments. We operate with clarity, accountability, and precision, delivering secure and scalable technology solutions that meet regulatory, operational, and business expectations. Our approach is built on trust, long-term partnership, and continuous improvement, enabling organizations to modernize with confidence.

Integrity:

Clear accountability and ethical decision-making.

Excellence:

Enterprise-grade delivery with measurable outcomes.

Innovation:

Practical technology applied with purpose.

Client Focus:

Trusted, long-term executive partnerships.

Security First:

Risk, governance, and protection by design.

OUR SERVICES

IT Consultancy & Advisory

- Digital Transformation Strategy & Roadmap
- Enterprise Architecture & Technology Governance
- Business Process Optimization & Automation
- Regulatory Compliance & Risk Management
- M&A Technology Integration & Due Diligence
- Innovation Labs & Proof of Concept

Cloud Infrastructure & Modernization

- Multi-Cloud Strategy & Vendor Selection
- Cloud Financial Governance & FinOps
- Enterprise Cloud Governance & Compliance
- Application Modernization & Cloud-Native Design
- Hybrid & Multi-Region Business Continuity
- Cloud Security Architecture & Posture Management

Migration & Transformation Services

- Enterprise Cloud Migration & Execution
- Legacy System & Application Modernization
- Microsoft 365 Tenant Migration & Consolidation
- Database Migration with High Availability
- Zero-Downtime Workload Migration Strategy
- Post-Migration Optimization & Governance

Managed IT Services & Operations

- IT Service Management, ITIL & Service Desk
- Enterprise Support with SLA Guarantee
- IT Asset Lifecycle & Configuration Management
- Proactive Infrastructure Health Monitoring
- Vendor Management & Technology Procurement
- Enterprise Service & Support Agreements

OUR SERVICES

Enterprise Backup & Disaster Recovery

- Microsoft 365 Backup & Long-Term Retention
- Multi-Cloud Data Protection & Geo-Redundancy
- Ransomware Resilience & Immutable Backup
- Business Continuity & Disaster Recovery (BCDR)
- Regulatory Compliance Archiving
- Executive RTO/RPO Governance & Reporting

Microsoft 365 Digital Workplace

- Enterprise M365 Deployment & Governance
- Exchange, SharePoint & Teams Architecture
- Microsoft 365 Migration & Consolidation
- M365 Apps Deployment & Update Management
- Regulatory Compliance & Retention Governance
- Copilot & AI Agent Governance for M365

Microsoft Intune & Endpoint Management

- Unified Endpoint Management (Win, macOS, iOS)
- Zero Trust & Conditional Access Enforcement
- Intelligent Endpoint Operations with AI Agents
- Secure Application Deployment & Policy Control
- Modern Device Provisioning & Autopilot
- BYOD & App-Level Data Protection

Microsoft Entra ID & Identity Security

- Enterprise Identity & Access Management (IAM)
- Single Sign-On & Federated Identity Services
- Risk-Based Conditional Access & Passwordless MFA
- AI-Assisted Identity Operations & Automation
- Identity Governance, PIM & Lifecycle Management
- External Identity & B2B/B2C Security

OUR SERVICES

Microsoft Defender Security Suite

- Defender for Endpoint – EDR & Server Protection
- Defender for Office 365 – Email Threat Protection
- Defender for Identity – AD Attack Detection
- Defender for Cloud Apps & Shadow IT
- Defender Vulnerability Management & Assessment
- Defender XDR Integration & Unified SOC

Ms Purview Governance & Compliance

- Data Governance, Classification & Discovery
- Information Protection, Labels & Encryption
- Data Loss Prevention (DLP) – Email & Cloud
- Insider Risk Management & Behavioral Analytics
- eDiscovery, Legal Hold & Audit Reporting
- Data Lifecycle & Regulatory Compliance

Microsoft Copilot & Agent Enablement

- Microsoft 365 Copilot Strategy & Deployment
- Copilot with Work IQ & Productivity Intelligence
- Custom AI Agents – Agent 365 & Power Apps
- Copilot for Security, Governance & Compliance
- Copilot & Power Platform Agent Integration
- Copilot Integration with ERP & CRM Systems

Microsoft SharePoint & Collaboration

- SharePoint Intranet Design & Development
- SharePoint On-Premises & Cloud Migration
- Enterprise Document Management & Governance
- SharePoint Permissions, Security & Compliance
- SharePoint Integration with Teams & Power Platform
- Custom SharePoint & Workflow Automation

OUR SERVICES

Microsoft Power Platform Excellence

- Power Apps - Custom Application Development
- Power Automate - Enterprise Process Automation
- Power BI - Analytics, Dashboards & Reporting
- Dataverse - Enterprise Data Platform Solutions
- Power Platform Governance & Center of Excellence
- Industry Specific Business Application Development

Data Intelligence & Analytics

- Microsoft Fabric & Modern Data Architecture
- Advanced Analytics & Business Intelligence
- AI & Machine Learning Model Deployment
- Enterprise Data Governance & Quality Management
- Data Integration, ETL & API-Driven Pipelines
- Real-Time Reporting & Decision Intelligence

Azure Cloud & Platform Services

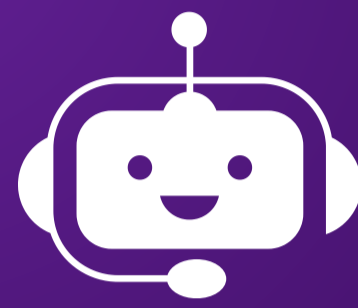

- Azure Landing Zone & Enterprise Architecture
- Azure Virtual Desktop (AVD) Implementation
- Azure Site Recovery & Failover Automation
- Hybrid & Multi-Cloud Networking (Azure Arc)
- Platform Engineering, DevOps & IaC
- Azure Cost Management & FinOps Optimization

Microsoft Sentinel & Security Operations

- Sentinel SIEM - Hybrid & Multi-Cloud Integration
- Security Automation & SOAR with Agentic AI
- Custom Detection Rules & Analytics Engineering
- Log Management, Ingestion & Data Connector Setup
- Defender XDR & Third-Party SIEM Integration
- Sentinel Workbooks, KPIs & Executive Dashboards

OUR SERVICES

AI Enablement & Business Transformation

- Enterprise AI Strategy & Operating Model
- Agentic AI Design & Autonomous Workflows
- Generative AI - Custom LLMs, RAG & Copilots
- Intelligent Process Automation & Optimization
- Enterprise Data Architecture for AI Readiness
- AI Governance, Security & Compliance Frameworks

ERP & Business Applications

- ERP Strategy, Assessment & Roadmap Planning
- Enterprise ERP Implementation & Delivery
- Custom Module Development & Integration
- Third-Party System & API Integration
- Legacy ERP Migration & Platform Modernization
- Ongoing ERP Support, Upgrades & Enhancement

DevSecOps & Application Security

- Secure Software Development Lifecycle (SDLC)
- CI/CD Pipeline Security & Automation
- Container Security & Kubernetes (AKS, EKS)
- Infrastructure as Code (IaC) Security
- Application Security Testing - SAST & DAST
- Secure DevOps Governance & Policy Enforcement

Cyber Security & Risk Management

- Enterprise Email Security & Policy Enforcement
- Endpoint Detection & Response (EDR) & ATP
- Privileged Access & Just-in-Time Management
- Vulnerability Management & Security Validation
- Incident Response & Cyber Risk Reporting
- OT/ICS & Critical Infrastructure Security

OUR SERVICES

Enterprise Security Operations

- Security Operations Center (SOC) Design & Build
- Managed Detection & Response (MDR)
- Threat Hunting & Proactive Adversary Detection
- Digital Forensics & Incident Response (DFIR)
- Ransomware Defense & Cyber Resilience Planning
- Executive Security Reporting & Board Briefings

Information Security & Governance

- IT Governance, Risk & Compliance (GRC)
- Security Policy Development & Enforcement
- Information Rights & Document Security
- Zero Trust Architecture Strategy & Roadmap
- Security Awareness & Phishing Simulation
- Data Privacy – GDPR, PDPL Compliance

Network Security & Infrastructure Protection

- Next-Gen Firewall Design & Threat Management
- Zero Trust Network Access & Micro-Segmentation
- Intrusion Detection & Prevention (IDS/IPS)
- Secure Remote Access & VPN Architecture
- Advanced Network Security & Multi-WAN
- Network Security Monitoring & Anomaly Detection

Security Assessment & Compliance

- Compliance Gap Analysis – ISO, NIST, GDPR, HIPAA
- CIS Benchmark Hardening – Windows, Linux, Cloud
- Cloud Security Posture & Configuration Audits
- NCA, SAMA & UAE IA Regulatory Compliance
- OS, Application & Infrastructure Hardening
- Penetration Testing & Red Team Exercises

OUR PORTFOLIO

With **7+ years in Tech**, Skytech has delivered enterprise-grade solutions across cloud, security platforms.

35+
Projects

Microsoft 365 Enterprise Security

Implemented Zero Trust, Defender XDR, Sentinel, DLP, and identity governance for secure and compliant environments.

70+
Projects

M365 Migration & Modernization

Delivered tenant-to-tenant, Exchange, SharePoint, and hybrid identity migrations with secure modernization.

100+
Projects

Microsoft 365 & Intune Deployments

Set up Microsoft 365 and Intune with secure configurations, device compliance, and policy enforcement.

100+
Projects

Cybersecurity & Network Security

Delivered security solutions with firewalls, endpoint protection, IAM, VPNs, and incident response.

40+
Projects

Cloud Infrastructure & Migrations

Designed and migrated workloads across Azure, AWS, and GCP with secure, scalable cloud architectures.

100+
Projects

AI Agents & Copilot Solutions

Developed Custom AI agents and Copilot solutions to automate workflows, enhance productivity, and support security operations.

WHY CHOOSE SKYTECH?

01 Certified Engineers with Hands-On Industry Experience

02 Proven Microsoft 365, Cloud & Cybersecurity Expertise

03 End-to-End Implementation & Support

04 Customized Security & Cloud Strategies

05 Security-First Design Across All Solutions

06 Transparent Engagement & Long-Term Partnerships
